Integration with the LenelS2 OnGuard® access control system gives operators the ability to monitor 2N IP intercoms, control calls and respond to events.

Features & benefits

Call management

Serverless solution supporting direct SIP calls from 2N IP intercoms to the desktop station, as well as calls via a central SIP proxy server

Initiate or terminate calls with just a single click in OnGuard Maps. "Intercom call" feature supported.

Automatically initiate or terminate calls from intercoms to any station based on OnGuard events

Monitor intercom call status (Initiated, Incoming, Established, Ended, On Hold) directly in the System Status Tree and in OnGuard Maps

Device monitoring

Reliable, stable and continuously monitored connection between OnGuard system and 2N IP intercoms

Extensive reporting of all intercom events and alarms displayed in OnGuard system (call states, connection status, SIP registration, audio loop test, motion and noise detection, etc.)

Access, video and communication events link together in OnGuard system to reduce operator's overheads
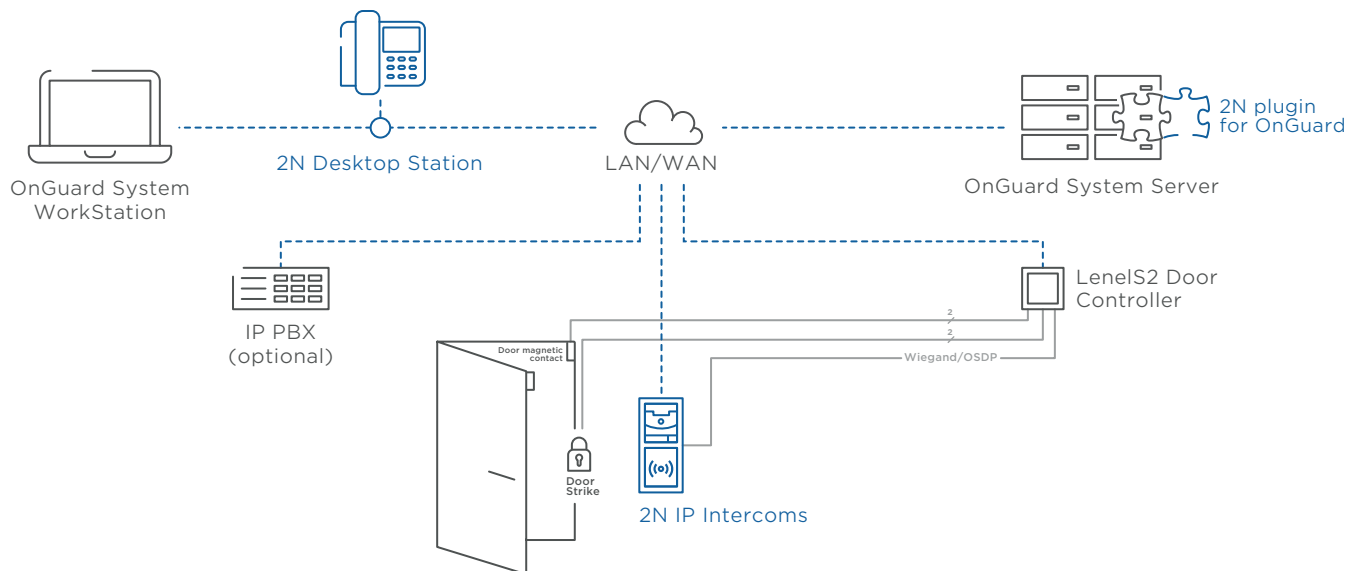

Event linkage and door control

Use of global I/O linkage to trigger OnGuard system action based on a received intercom event (motion or noise detected, tamper switch activated, I/O status changed, DTMF sent and many others)

Trigger door opening through the intercom system

How does it work?

OnGuard System WorkStation · 2N Desktop Station · LAN/WAN · OnGuard System Server · 2N plugin for OnGuard · IP PBX (optional) · Door magnetic contact · Door Strike · 2N IP Intercoms · LenelS2 Door Controller · Wiegand/OSDP

Compatible 2N products

2N® IP Verso   2N® IP Solo   2N® IP Force   2N® IP Safety   2N® IP Base   2N® IP Style   2N® IP Phone D7A

Coming soon

Licensing and software requirements

| 2N IP intercoms with 2N OS 2.33 or newer

| OnGuard version 7.6 or 8.0

| .NET Framework 4.6.1 (on the OnGuard Communication Server where the 2N plugin for OnGuard is installed)

| OnGuard license: Intercom interface license (SWG-1340)

| 2N License: 2N® plugin for OnGuard (02624-001) per server
